FIELD HEADQUARTERS NEAR NAMIQUIPA, Mexico, April 17, via aeroplane to Columbus, N. M., April 29.—If this expedition is to succeed in its mission and account in the manner of the state of affairs may be had, but it will be but an inkling. Parral was but the culmination of a long series of annovances borne because there was no partment that he had moved a battalion is to succeed in its mission and account of the columbus and to-day he reported to the War Department that he had moved a battalion.

the part of Washington.

This is any own opinion, particularly since the details of the Parral affair have begun to leak through from the extreme front. We who have travelled the length of the very long line of communications have long known that there was no love for the American army among the people of the districts travelled through, and

only the hol polloi, but those who claim to be representatives of the so-called into play, both the Mexican Central and the Mexican Northwestern railroads thing in their power to hinder and hamper us.

When the flying columns were sent from the first base established at Colonia Dublan with the hope of catching Villa at Rancho San Miguel, where it was known he was in rendezvous, they were hampered in every possible man.

More men are needed. A carefully organized secret service should be called into play, both the Mexican Northwestern railroads should be commandeered and the commanding officer given a free hand in the matter of searching houses and whole communities when he has reason to believe Villa or a friend of Villa is being hidden, and from which raids upon lines of communication may be directed.

This may sound drastic and not in
